

PADLOCK SECURITY FEATURES

SECURITY LEVEL

PHYSICAL SECURITY	Higher				Lower
Cut Resistance					
Shackle Material	Shackle Shroud	Boron Alloy	Hardened Steel	Steel	Brass
Shackle Diameter	7/16"	3/8"	5/16"	1/4"	3/16"
Pick Resistance (No. of Tumbler Pins)	10-Pin	6-Pin	5-Pin	4-Pin	3-Pin Warded
Shackle Locking Mechanism	Dual Ball Bearing		Dual Lever		Single Lever
Lock Body Material	Solid Steel	Laminated Steel		Aluminum	
Weather Resistance	Covered	Brass, Aluminum	Laminated Brass	Laminated Steel	

KEYING OPTIONS:

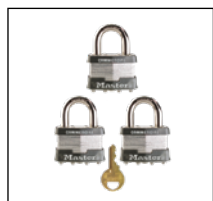

Keyed Different:

Padlocks with a different operating key for each lock.

Keyed Alike (KA):

Sets of padlocks can be opened by the same key for added convenience. Stock KA numbers listed below. Contact us for additional KA numbers.

Master Keyed:

Padlocks with a different operating key for each lock, and with a single key that opens all locks for supervisory access. Contact us for additional information.

Removable Cylinder:

Permits replacing the key and cylinder without requiring a new padlock.

MAXIMUM SECURITY

Solid steel padlocks offer the highest protection of hardened steel. Our padlocks come in a wide range of widths, with shackle lengths and diameters to fit any application - great for outdoor protection of commercial buildings, industrial plants and perimeter, remote and unattended properties and high risk areas.

AMERICAN LOCK HIDDEN SHACKLE PADLOCKS & MASTER LOCK SOLID STEEL HASPS (REKEYABLE)

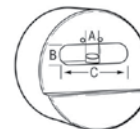

- Hidden shackle padlock design provides maximum security against drilling, sawing and crowbars
- Precision machined from high quality solid steel
- Flat back design
- Triple plated for superior corrosion protection
- Rekeyable 6-pin APT2001 cylinder provides superior pick resistance
- Ideal for vans, trucks, gates and vending machines

MASTER LOCK SOLID STEEL PADLOCKS (REKEYABLE)

- Rekeyable - replaceable cylinder and shackle
- ProSeries® Padlocks are ideal for industrial and construction applications
- Comes with two keys
- 5-pin Pro Series® cylinders provide tens of thousands of key changes
- Hardened boron alloy steel shackle offers superior cut resistance while dual ball bearing locking mechanism resists pulling and prying attacks
- Hardened, chrome-plated solid steel body that resists cutting, sawing, and corrosion
- For keyed alike options and master keying, please call us

MASTER LOCK SOLID STEEL SHROUDED PADLOCKS (REKEYABLE)

- Shackle shroud protects from bolt cutters
- Heavy hardened steel body with chrome rustproofing for high security with long life
- Hardened boron alloy shackle for superior cut resistance
- Dual deadbolt locking for extreme resistance to pry
- High security, rekeyable 5 pin cylinder with spool pins is virtually impossible
- ProSeries® Padlocks are designed for Commercial and Industrial applications
